

ANTI-BRIBERY POLICY OF THE NATIONAL ASSEMBLY OF ECUADOR

At the National Assembly of Ecuador we are committed to work against bribery and corruption to improve the quality, efficiency and transparency in the management and production of standards and in the control of government action, complying with anti-bribery laws, guidelines and requirements applicable to the institution.

With that inviolable ethical spirit, we will execute the necessary measures to prevent, denounce, punish and eradicate any form or practice of corruption, without fear of reprisals and internal or external interventions that undermine the improvement of the Anti-Bribery Management System.

In the non-compliance of this Policy, the National Assembly of Ecuador will apply the corresponding regulations, promoting the construction of a culture of zero tolerance against bribery and corruption.
